

# webnames.ca corporate & premier services

---

## Domain Privacy

When you register a domain name, your personal information including name, address, phone number and email are listed in a public WHOIS database.

Webnames™ Domain Privacy Service allows you to update your WHOIS record with non-personal information. When Privacy is enabled on your domain name(s), the Administrative, Billing and Technical sections of your WHOIS record are replaced with generic Webnames Services contact information.

With Webnames™ Privacy you remain the Registrant and always complete in control of your domain name(s).

Privacy is available for the following extensions: .CA, .COM, .ORG, .NET, .INFO, .BIZ, .CN, .MOBI, .ASIA. For all domain extensions, except .CA, your Organization/Company name in the WHOIS will be set to Webnames Services Inc. If you desire full anonymity for .CA domain names, please contact your Corporate Account Manager.

## Benefits of Domain Privacy

- Anonymity for concept-stage products and projects
- Protect yourself from spam, telemarketers, identity and domain theft
- Receive email from Webnames.ca and Registries only
- Retain ownership and complete control of your domain

## Important Information

- As of June 10, 2008 Individual Registrants of .CA domains will receive WHOIS Privacy by default through CIRA. No action or purchase is required
- WHOIS Privacy for .US domains is prohibited by the US Department of Commerce

## Pricing

Webnames Privacy is \$10.00 CAD/year per domain name.  
Please contact your Corporate Services Account Manager for bulk pricing information
