.mobi: Dedicated to Delivering the Internet to Mobile Devices

Mobile phones outnumber personal computers by four to one and Internet browsing on wireless devices is growing globally.

.mobi is the new top-level domain dedicated to bringing the Internet to mobile devices. By guiding mobile users to made-for-mobile Internet content, .mobi promises to revolutionize Internet use on mobile devices by creating a better and more reliable end-user experience.

Best Practices

Webnames.ca recommends Canadian businesses and organizations protect their intellectual property by proactively registering core domain names, trademarks and brands in the .mobi extension and developing mobile content for .mobi domains.

Pricing

Ongoing registration : \$35.00 US/year (2 year minimum)
Renewals : \$35.00 US/year (1-10 year terms)
Registrar transfer : \$35.00 US

* All registrations include a .mobi compliant parking page for an immediate mobile presence.

For additional information

To have your Webnames.ca account representative register the .mobi extensions of your primary domain names, or provide other recommendations specific to your domain portfolio contact:
